

DIVISION XIII FIRE HYDRANTS

Section 13.01 Use of Fire Hydrants.

Fire hydrants are for use by the District or by the local organized fire protection agency. Other parties desiring to use fire hydrants for any purpose must first obtain written permission from the District and the local fire protection agency prior to use and shall operate the hydrant in accordance with instructions issued by the District and local fire protection agency. Unauthorized use of hydrants will be prosecuted according to law.

Section 13.02 Moving of Fire Hydrant.

If a property owner or other party desires a change in the size, type or location of a hydrant, he shall bear all costs of such changes, without refund. Any change in the location, type or size of a fire hydrant must be in accordance with all local laws, rules, regulations and ordinances, and must be approved by the local fire protection agency.
