FOR DISTRICT USE ONLY:

Building Permit No. _____ Expiration Date _____ Date Received _____

Primary Facility Fees & Water Meter Deposit _____ Date Paid _____

Date Application Approved _____ By _____

President, Board of Directors

Applicants must complete the following requirements in order to secure a Sierra Lakes County Water District ("SLCWD") Connection Permit:

1. You must submit building plans for plan check review to the Placer County Building Department, Tahoe City Office. Upon submitting building plans, the County will provide you with a Confirmation of Water and Sewer Services/Intent to Serve form (“Intent to Serve”) which then must be presented to SLCWD.

2. You must simultaneously submit the Intent to Serve, a completed Application for Connection (“Application”) and payment of the sewer and water primary facility fees and water meter deposit listed below. SLCWD will not accept any of the above items separately.

Sewer Primary Facility Fees	\$7,800.00
Water Primary Facility Fees	1,825.00
Water Meter Deposit	<u>428.00</u>
Total Charge	\$10,053.00

3. Upon SLCWD receipt of a completed Application and payment of fees, SLCWD will assign a connection permit number and sign off on the Intent to Serve. A connection will be reserved for the property upon issuance of a connection permit number. The connection permit number is specific to the lot for which application is made and cannot be transferred to any other parcel.

4. In order to receive a Connection Permit, you must provide SLCWD with a copy of the completed and approved building permit within ninety (90) days after the date a connection permit number is assigned. Connections to the SLCWD water and sewer systems shall not be made until a Connection Permit is issued. If a copy of the building permit is not submitted to SLCWD within ninety (90) days, the reserved connection permit number will be withdrawn and the primary facility fees will be refunded, less 10% for administrative costs. The water meter deposit will be refunded in full. If your connection permit number has been withdrawn, you must then begin the process anew.

5. Connections to the SLCWD water and sewer systems shall not be made until a Connection Permit is issued. The Connection Permit is valid for the effective period of the building permit, as such may be extended.

6. It is the responsibility of the landowner to design and construct on-site facilities in such a way as to provide adequate slope to the connection point with the District’s existing sewer facilities and adequate depth of cover for water lines.

7. Water and sewer base charges will commence upon physical connection to the SLCWD systems. Base charges will be prorated from the date of connection. Water and sewer service charges will commence at such time as construction permits the use of water and sewer services,

and will prorated accordingly. It is your responsibility to advise SLCWD when construction allows use of services. At the present time, water and sewer base charges are \$195.00 per calendar quarter; and water and sewer service charges are \$272.50 per calendar quarter.

8. Depending on the ongoing engineers' study being conducted by SLCWD and Donner Summit Public Utility District ("DSPUD") and in the event SLCWD increases its sewer primary facility fee or adopts an equivalent charge or assessment to fund expansion of the DSPUD wastewater treatment facility to provide for sewer service demands within SLCWD, you may be required to pay the amount of the increase in the sewer primary facility fee or an equivalent charge or assessment in addition to the sewer primary facility fee which you paid with this Application.

By signing this Application, the undersigned agrees to comply with SLCWD's Instructions to the Applicant for Water and Sewer Connection, the above requirements and all SLCWD ordinances, rules and regulations relating to water and/or sewer service, and agrees to pay, in addition to the sewer primary facility fee paid with this Application, any increase in such fee or an equivalent charge or assessment if so required by SLCWD in connection with the funding of expansion of the DSPUD wastewater facility.

Property Owner Signature Required
